

RETIREMENT!!!!!!

Members planning early or age retirement need to seek detailed advice on the best options concerning the level of superannuation contributions to make in their final years, preservation rights, date of retirement, use of long service leave entitlements. The AEU encourages members contemplating retirement to seek independent financial advice from at least two sources.

Members should also contact the Union Office about the likelihood of pay rises and their date of effect, which may influence the timing of a member's retirement date.

Refer to the Membership Services page of the website for the names of financial advisors that the AEU recommends to members. Note that the AEU has no relationship with these providers, nor does the AEU receive any benefit from membership referrals.

The AEU does not provide financial advice of any kind to any person.
