

SCHOOL CLOSURE

Council calls on the ACT Government to not implement any public school closure unless and until:

- extensive and genuine consultation has occurred with the affected communities.
- clear and justifiable explanations have been provided to the school communities.
- an effective and fully funded alternative arrangement has been provided to the school communities.
- it is agreed that all money raised through school closure, including land and asset sales, is to be returned to the ACT public education system or alternatively the land and assets are to remain in public ownership for community use.
- it is agreed that no public school building or land is to be used for private schools.
